

GRNC Update 07-20-08:
SB 2081 NRA Takes Credit For GRNC Amendments

Mark Twain noted that “No man's life, liberty, or property is safe while the legislature is in session.” So it can be said that life, liberty, and property are now safe... at least from the North Carolina General Assembly that is.

In a recent alert, NRA touted SB 2081 as a pro-gun bill and took credit for its passage. This is not exactly correct. SB 2081 was not a pro-gun bill, but it was rendered no more harmful than the federal “NICS Improvement Act” by special amendments drafted by GRNC and introduced by Senator PHIL BERGER. These three improvements added by the diligence of Sen. Berger softened the bill to the point that GRNC backed away from its original opposition (at a time that NRA was already neutral) to a neutral posture.

There is one position from which the NRA may take credit for SB 2081 from, however; the federal “NICS Improvement Act” placed mandates for states to pass legislation similar to SB 2081. Since NRA backed this bad federal legislation that “We the People” have been saddled with; in a manner of speaking, they can take credit for its passage. The acceptable end product with the softening amendments were all due to the diligence of GRNC and the pressure applied by you fine people. Let NRA-ILA know that you are aware of this.
